[MG-UY 2204 B] – [Financial Accounting]
Semester Fall 2026 – Syllabus
Ashish Kohli

To contact professor:

Instructor: Ashish Kohli
Email: ak3881@nyu.edu
Office Location: 10th Floor, 2 MetroTech Center (Adjunct Faculty — no permanent office)

Office Hours: By appointment (in person or via Zoom) and 9:00-11:00 PM Friday (By appt)
Class Meetings: Mondays & Wednesdays, 10:00 AM – 11:50 AM
Course Location: Jacobs Hall, 6 Metrotech Room 207 Loc: Brooklyn Campus

Course Prerequisites

None

Course Description

This is a semester-long course worth 4 credit hours.

This course provides a solid foundation in constructing and interpreting financial statements. Topics include accounting terminology, financial statement preparation and analysis, liquidity and credit-risk ratios, depreciation calculations, revenue recognition, accrued liabilities and asset valuation. Also covered are the effects of equity transactions, cash flows and various accounting methods on financial statements.

Course Objectives

The goals and objectives of the course are:

1) necessitate the development of the student's understanding of the nature of economic activities that accounting information describes, the assumptions and measurement techniques involved in developing

accounting information, and the information that is most relevant for making various types of decisions.

2) to provide an overview of the various jobs in accounting and finance. These will also be covered in detail in Introduction to Finance, Advanced Corporate Finance and Financial Strategy (the latter two course for students who are taking the Finance Concentration)
3) for students to have a detailed understanding of the income statement and balance sheet and be able to develop these statements for a service and merchandise business. We will cover the cash flow statement in detail in the Introduction to Finance course
4) to apply generally accepted accounting principles (GAAP) to accounts including cash, accounts receivable, inventory and fixed assets

The primary objective of the course is to clarify the student's thinking about business and business organizations through the disciplined framework of accounting accomplished through the goals described above.

Course Structure

In-Person: This course is conducted entirely in person, and you are required to attend classes on campus. All class meetings will be held at Jacobs Hall, 6 Metrotech Room 207 Loc: Brooklyn Campus. You will engage in lectures, discussions, activities, and assessments directly in the classroom.

Grade Breakdown (%)

- Test # 1: 20%
- Midterm Exam #2: 30%
- Test #2: 20%
- Final Exam #4: 30%

By the midterm, students would have completed 50% of the coursework.

Learning Time Rubric

Learning Time Element	Time on Task for Students (weekly estimate)	Notes
Weekly Lectures	3 hours 40 min	Lectures each week will be held in person.
Reading Chapters Given in the Syllabus	4 hours	Reading Chapters from the assigned textbook below and Chapter Presentations Provided in Brightspace
Solving Problems Done in Class and Outlined in the Syllabus	4 hours	There will be an assignment every week

Course Communication

There are a few ways that I will communicate with you throughout the semester. You may receive communication and information directly from this syllabus, via email, or during office hours. In addition, I will communicate through NYU Brightspace, using the following methods:

Announcements –

Announcements will be posted on NYU Brightspace to keep you up-to-date on all course activities and deadlines. You can locate all class announcements under the *Announcements* tab of our class. It is your responsibility to check the class announcements regularly as they will contain important information about class assignments and other class matters.

Discussion Forums –

Discussion forums are an excellent way for you to engage with the course material and with your peers. Any discussion forums for this course will be accessible through the *Discussions* tab in your NYU Brightspace course site.

Virtual Meetings –

In addition to weekly in-person class meetings, I may choose to hold virtual meetings through the *Zoom* tool on NYU Brightspace, e.g. office hours.

Netiquette –

When engaging with others in NYU Brightspace, it is important to interact in an appropriate manner. Always use professional language (no netspeak) in your discussion board posts. Please always be respectful of your classmates even if you disagree with their ideas.

Readings

[**REQUIRED TEXTS**: **Williams, Haka, Bettner and Caracello, *Financial Accounting*, 18th edition** (McGraw-Hill/Irwin); ISBN-13: 978-1260 24794 7.

Weekly reading assignments will be assigned and available in the syllabus and Brightspace.

You can access NYU's library here: http://library.nyu.edu/

The Inclusive Access e-book edition will be delivered to you digitally. You will receive an email from "BryteWave" with the instructions for accessing the material. The cost of the book is **$41.25**, which will be added as a "book charge" to your bursar bill. If you choose to find your course materials elsewhere, you must login here to the student portal and opt out of the program by **September 17th**. If you do not opt out by this date, you will be charged.

Course Requirements

Participation is paramount to your success in this course. Be sure to log into NYU Brightspace multiple times a week, read all announcements and course content, complete all assignments on time, and complete weekly readings.

Exams – Week 5, 8 12 and during Finals Week

100% of Total Grade (Test 1 20%, Midterm Exam 30%, Test 2 20% and Final Exam 30%)

Grades will be based on four tests results. These will consist of two tests or exams, a mid-term examination, and a final exam. Failure to show up for an exam will result in a grade of zero for the particular test not taken. "Make-up's" will be given only in exceptional circumstances and must be approved by the Office of Student Services. The anticipated dates of tests and examinations are provided under the heading "Topics and Calendar", below.

If you score higher marks in the Midterm than Test #1, the higher marks will be considered. Similarly, if you score higher marks in the Final examination than in Test #2, the higher marks in the Final examination will be considered. For example, if Midterm marks are 90 and Test #1 marks are 80, then you would be deemed to have scored 90 marks for both Midterm and Test #1. If your Midterm

marks are 80 and Test #1 marks are 90, then you would be deemed to have scored 80 marks for Midterm and 90 marks for Test #1. The relative weights of each exercise and the alpha/numerical grading scheme are as follows:

Item	Weight (points/100)
Test #1	20
Mid-term examination #2 (cumulative)	30
Test #2 (non-cumulative)	20
Final examination #4 (cumulative)	30
Total	100

Total Points Range	
95-100	A
90-94	A-
85-89	B+
80-84	B
75-79	B-
70-74	C+
65-69	C
60-64	C-
55-59	D+
50-54	D

x<50 F

Failure to present oneself for a test or examination will result in a grade of zero for that particular exercise. "Make-up's" will be given only with the approval of the Office of Student Affairs based upon extraordinary circumstances. The anticipated dates of the tests and examinations are provided in Section H, "topics and Calendar", below.

Exams: All exams are paper and pen, no cheat sheets, closed book with no partial marks awarded for answers as per department guidelines and are problem based. You may do class problems by hand (recommended) or in Excel but exam is by use of pen/pencil and calculator.

IMPORTANT DEADLINES

Component Name	Component weight	Submission Type	Format	Date of Exam (in Class except Final Exam TBD)
EXAMINATIONS				
Test 1	20%	Closed Book Exam without cheat sheet	Problems based as discussed in class and syllabus	September 30
Midterm Exam	30%	Closed Book Exam without cheat sheet	Problems based as discussed in class and syllabus	October 28
Test 2	20%	Closed Book Exam without cheat sheet	Problems based as discussed in class and syllabus	November 18
Final Exam	30%	Closed Book Exam without cheat sheet	Problems based as discussed in class and syllabus	TBD (As per NYU Exam Schedule)
Total	**100%**			

Course Schedule

Topics and Calendar

Week 1 Sep. 2	Introduction to the course Accounting information for decision-making
Preparation	Read Chapter 1
Week 2 Sept. 9-14	Basic financial statements
Preparation	1. Read Chapter 2 2. Demo Problem 3. Self-test 1-8 4. Brief Exercises 2.1-2.4 5. Exercises 2.2, 2.4, 2.6. 6. Problems 2.1A, 2.3A, 2.8A
Week 3 Sept. 16-21	The accounting cycle: capturing economic events
Preparation	1. Read Chapter 3 2. Demo problem 3. Self-test 1-8 4. Brief Exercises 3.2-3.10. 5. Exercise 3.8 6. Problem 3.7A
Week 4&5 Sept. 23-28	The accounting cycle: accruals and deferrals
Preparation	1. Read Chapter 4 2. Demo problem 3. Self-test 1-5 4. Brief Exercises 4.1-4.8 5. Exercises 4.3, 4.6, 4.7, 4.8

	6. Problem 4.4A
Week 5 Sept. 30	**Test # 1**
Week 6 Oct. 5, 7, 14	The accounting cycle: reporting financial results
Preparation	1. Read Chapter 5 2. Demo problem 3. Self-test 2-8 4. Brief Exercises 5.3, 5.5, 5.8 5. Exercises 5.2, 5.3, 5.10
Week 7 Oct 19, 21, 26	Merchandising activity
Preparation	1. Read Chapter 6 2. Demo problem 3. Self-test 3 & 4 4. Brief Exercises 6.1, 6.3, 6.8, 6.11 5. Exercises 6.2, 6.4 6. Problems 6.2A
Week 8 Oct. 28	**Mid-term examination (cumulative)**
Week 9 Nov. 2	Inventories and cost of goods sold
Preparation	1. Read Chapter 8 2. Demo problem 3. Brief Exercises 8.1-8.4, 8.9, 8.10 4. Exercise 8.2, 8.13 5. Problem 8.2A

Week 10 Nov. 4 Financial assets: cash and marketable securities

Preparation
1. Read Chapter 7
2. Brief Exercises 7.2-7.4
4. Exercises 7.1, 7.5, 7.13
5. Problem 7.5A

Week 11 Nov. 9-11 Financial assets: accounts receivable

Preparation
1. Read Chapter 7
2. Brief exercises 7.5, 7.7, 7.10
3. Problem 7.3A

Week 12 Nov. 16 Plant and intangible assets

Preparation
1. Read Chapter 9
2. Demo problem
3. Self-test 1, 5, 6
4. Brief Exercises 9.1, 9.2, 9.6, 9.7
5. Exercises 9.2, 9.3a, 9.9

Week 12 Nov. 18 **Test # 2 (non-cumulative)**

Week 13 Nov 23-25 Liabilities

Preparation
1. Read Chapter 10
2. Demo problem
3. Self-test 1, 2, 4, 5
4. Brief Exercises 10.2-10.7
5. Exercises 10.1, 10.6, 10.9, 10.10, 10.11

Week 14 Nov 30-Dec. 2	Stockholders' equity and paid-in capital
Preparation	1. Read Chapter 11 2. Demo problem 3. Self-test 1-6 4. Brief Exercises 11.1-11.5, 11.9, 11.10 5. Exercise 11.9
Week 15 Dec. 7	Financial statement analysis
Preparation	1. Read Chapter 14 2. Demo problem 3. Self-test 1-7 4. Brief Exercises 14.4-14.10
Week 16 Dec. 9, 14	Review for Final Exam

Course Policies

Generative Artificial Intelligence Use

AI generative or machine learning tools can be used to assist with course deliverables, provided that all utilized information is cited in accordance with program guidelines. In addition, note that information produced by AI generative tools may be inaccurate or outdated. Since all the grading components are closed book exams, AI or machine learning tolls will not help you in exams but can certainly help you understand and review the materials prior to the exams.

Late Work

Failure to present oneself for a test or examination will result in a grade of zero for that particular exercise. "Make-up's" will be given only with the approval of the Office of Student Affairs based upon extraordinary circumstances.

Moses Center Statement of Disability

If you are a student with a disability who is requesting accommodations, please contact New York University's Moses Center for Student Accessibility (CSA) at 212-998-4980 or mosescsa@nyu.edu. You must be registered with

CSA to receive accommodations. Information about the Moses Center can be found at www.nyu.edu/csa. The Moses Center is located at 726 Broadway on the 2nd floor.

NYU School of Engineering Policies and Procedures on Academic Misconduct *(from the School of Engineering Student Code of Conduct)*

A. Introduction: The School of Engineering encourages academic excellence in an environment that promotes honesty, integrity, and fairness, and students at the School of Engineering are expected to exhibit those qualities in their academic work. It is through the process of submitting their own work and receiving honest feedback on that work that students may progress academically. Any act of academic dishonesty is seen as an attack upon the School and will not be tolerated. Furthermore, those who breach the School's rules on academic integrity will be sanctioned under this Policy. Students are responsible for familiarizing themselves with the School's Policy on Academic Misconduct.

B. Definition: Academic dishonesty may include misrepresentation, deception, dishonesty, or any act of falsification committed by a student to influence a grade or other academic evaluation. Academic dishonesty also includes intentionally damaging the academic work of others or assisting other students in acts of dishonesty. Common examples of academically dishonest behavior include, but are not limited to, the following:

    1. Cheating: intentionally using or attempting to use unauthorized notes, books, electronic media, or electronic communications in an exam; talking with fellow students or looking at another person's work during an exam; submitting work prepared in advance for an in-class examination; having someone take an exam for you or taking an exam for someone else; violating other rules governing the administration of examinations.
    2. Fabrication: including but not limited to, falsifying experimental data and/or citations.
    3. Plagiarism: intentionally or knowingly representing the words or ideas of another as one's own in any academic exercise; failure to attribute direct quotations, paraphrases, or borrowed facts or information.
    4. Unauthorized collaboration: working together on work that was meant to be done individually.

5. Duplicating work: presenting for grading the same work for more than one project or in more than one class, unless express and prior permission has been received from the course instructor(s) or research adviser involved.
6. Forgery: altering any academic document, including, but not limited to, academic records, admissions materials, or medical excuses.

Access the entire School of Engineering Student Code of Conduct here: engineering.nyu.edu/academics/code-of-conduct

Statement On Inclusion

The NYU Tandon School values an inclusive and equitable environment for all our students. I hope to foster a sense of community in this class and consider it a place where individuals of all backgrounds, beliefs, ethnicities, national origins, gender identities, sexual orientations, religious and political affiliations, and abilities will be treated with respect. It is my intent that all students' learning needs be addressed both in and out of class and that the diversity that students bring to this class be viewed as a resource, strength, and benefit. If this standard is not being upheld, please feel free to speak with me.
